Advanced Integration Workshop Content:

1. Verbal and Non-Verbal Communication

Learn how to create a deep sense of trust and safety with others in a matter of minutes, making it easier to communicate. A powerful process is used to create a situation of hemispheric integration when communicating with others, verbally and non-verbally. It helps to appreciate and accept the other person, and to connect easily and comfortably. Facilitating change becomes easier than ever before.

2. Belief Points

Learn 12 points on the body that are derived from ancient acupuncture. They represent key beliefs on the subconscious level that inform us about how we are limiting ourselves. When these points are combined with Energy Focusing, these subconscious beliefs can be accessed and changed in a matter of seconds.

3. Energy Focusing

A safe and effective process that allows you to *focus energy* to a Belief Point in order to change subconscious self-limiting beliefs quickly and easily.

4. Surrogation

A process using a surrogate (substitute person) to effect changes at a distance for someone not physically present. This approach can be used to expand your sphere of influence including people, as well as objects (like your house), qualities (like you're your inner child) or even pets.

5. Core Belief Balance

This balance aligns 13 Core Beliefs that support the manifestation of your full potential in life. It is frequently a profound alignment process that prepares the mind-body system for accelerated growth and change.

6. Relationship Balance

This balance will help you transform personal issues with others, and better understand the lessons to be learned in relationships. It will provide a clearer perspective on the value of relationships between parents and children, siblings, coworkers, spouses, friends and lovers.

7. Life Bonding Balance

The trauma of birth and the fear of death are two powerful aspects of human existence. This balance utilizes breath as a means of reprogramming the negative impact of these influences in our lives. By directing the breath back and forth between two power points in the body, you will learn to release stress associated with the birth and death experience and free yourself to experience the joy of life.

8. Energy Circle

An extraordinary experience utilizing group energy focusing. This is a wonderful opportunity to experience the awesome effects of giving and receiving concentrated unconditional love-energy!

In other words, you will learn new balances as well as how to use the power breath and energy for healing and there will be ample time to practice and to explore possibilities for various applications of these special balances.
