

# Divine Integration Retreat

26-27-28-29 September 2019  
Konya, Turkey

**"We are not human beings having a spiritual experience.  
We are spiritual beings having a human experience."**

## **What is the purpose of D.I.R?**

The singular purpose of this Retreat is to provide participants with both recognition, and a direct experience of the Divine essence in each of us.

The Retreat provides an opportunity to identify and change any limiting beliefs about one's own divinity.

In the culminating experience of the Retreat, the effect of group synergy is used to create an energetic environment in order to generate a personal experience of one's own divine connection. In the tradition of "the whole is greater than the sum of its parts," this experience leverages group dynamics to facilitate a field effect in which each person can benefit from the power of the group in this state of divine coherency.

The more of us who recognize our true spiritual nature, the more of the Source of All That Is, will manifest in the world. It is PSYCH-K's way of nurturing 'Sacred Global Evolution'.

## What can you expect from attending the Divine Integration Retreat?

- Recognize and experience a direct connection to your Higher-Self
- Change limiting beliefs about your own divinity
- Experience group synergy of Divine Consciousness
- Discover your true nature as a spiritual being having a human experience
- Learn to see the divinity in others

## Who can attend this Retreat?

It is inclusive of all religious and spiritual orientations.

Because the Divine Integration Retreat builds on processes and experiences from the Basic and Advanced PSYCH-K® Workshops, completion of both Basic and Advanced Workshops is required before attending the Retreat.

## How is the Process?

We will do a general overview of the Balances prior to each integration opportunity, however being familiar with each Balance will allow you to relax about the details and enhance your joy of the experience.

This is an integration retreat - plan to enjoy your experience and reflection time by letting go of everyday activities and find new connections with yourself and with the other participants.

## What is the cost?

There is no fee for the Retreat. Participants pay for their own lodging, food, travel and incidentals. If you would like to compensate the effort of the instructors you may contribute with an anonymous donation.

Please inform us if you need any assistance for accommodation.
